

THE LEADER IN OFF-ROAD PRODUCTS SINCE 1948

Since developing the world's first locking hub in 1948, Warn Industries has been the leader in manufacturing essential off-road products and accessories. Today, Warn Industries offers a full lineup of high-performance self-recovery winches for trucks and SUVs, durable winch mounting systems and body armor, plus off-road lights and accessories. Revolutionary technology, efficient designs, and legendary WARN dependability fuel the best off-road products on the market.

WARN INDUSTRIES, INC.

12900 S.E. Capps Road
Clackamas, OR USA 97015-8903

1-503-722-1200 FAX: 1-503-722-3000 www.warn.com
Customer Service: 1-800-543-9276
Dealer Locator Service: 1-800-910-1122

Please call between 7:00 a.m. and 4:00 p.m. Pacific Time, Monday through Friday.
The dealer locator service is 7 days per week and 24 hours a day.

WARN winch +
WARN mounting kit:

Engineered
to work together

9.5xp Extreme Performance Winch offers the fastest line speed of any WARN winch under full load.

16.5ti Thermometric Winch delivers the highest pulling capacity of any truck winch on the market today.

A POWERFUL WINCH DEMANDS A POWERFUL HOME

WARN® winches and WARN mounting kits are designed and engineered together as a system to provide maximum pulling power and withstand the particular stresses encountered in winching operations. During winching, the WARN system is designed to distribute the weight of the pulling load throughout the vehicle's frame, providing extra stability and minimizing the possibility of changing the alignment of your truck.

WARN engineers utilize computer-aided design programs to insure the WARN Trans4mer mounting kit with a WARN winch fits the specific make and model of your vehicle.

TESTED ON THE BENCH, TESTED IN THE FIELD

Together as a system, WARN winches and WARN mounting kits are tested in the lab and in the field at the full rated winch capacity. WARN engineers use these test results to design industry-leading winch recovery systems that deliver the performance you can count on when you need it most.

WARN mounting kits are tested with, and guaranteed to accommodate, specified WARN winches only.

MANUFACTURED TO EXACT SPECIFICATIONS

WARN winch mounting kits are laser cut to the exact dimensions of the make and model of your truck, shaped on a computer controlled press machine, and robotically welded for consistent results. They're also engineered with factory bolt patterns to specifically accommodate WARN winches.

Insist on a WARN winch and a WARN mounting kit to get the maximum performance from your winch system.
